

Role of the Lung Cancer Nurse at PAH

Tracey Horey
Lung Cancer Nurse Specialist

Objectives

- To introduce the Lung CNS team
- To highlight our role
- Patient support
- Future developments

TRUST VALUES to STANDARDS

PAH Lung CNS Team

Emphasis is on bridging communication gaps

- Patient and the health care provider
- Tertiary, Secondary & Primary care.
- Between all members of the Multidisciplinary team.

Lung CNS Role & Patient Support

- Potential lung cancer patients
- New diagnosis of lung cancer
- Clinics
- Joint Clinic with St Clare's Hospice
- Referrals
- Completion of HNAs at diagnosis
- Telephone support line for patients
- Lung Cancer Support Group

Lung CNS Role

- › Support HWBE
- › Attendance at the weekly Lung Cancer MDT
- › Co-ordinate investigations & treatments
- › Teaching
- › Participate in audits
- › Member of London Cancer Lung Cancer Board

Future developments

- › Patient satisfaction surveys
- › HNA at end of treatment
- › End of treatment summaries
- › Nurse-led clinics: telephone and clinic
- › Continue to look at ways to improve the patients' pathway
- › Organise a teaching & development programme
- › Our education and on-going development
