

The medical negligence team

When you or someone close to you suffers injury as a result of a medical error it is difficult to know where to turn. There may be long term physical, psychological and financial consequences. If you find yourself in this situation, please contact Ashtons Legal's highly acclaimed medical negligence team to discuss your injury with one of our compassionate lawyers who will be more than happy to assist you.

What we do

Ashtons Legal are leaders in the field of representing clients who have suffered injury as a result of medical errors. We have been rated as the top firm in East Anglia for medical negligence claims for over 15 years.

Our lawyers stand out from the crowd. We are approachable and sensitive yet dogged and determined. We avoid confusing clients with legal jargon and provide legal advice in plain English. As the case progresses we ensure that our clients are comfortable with everything that is happening and fully understand what we are doing and why we are doing it.

We work closely with medical experts to identify whether medical negligence has occurred that merits an award of compensation. If compensation is payable, we strive to maximise the award to obtain fair and proper redress for our client.

From our extensive experience of representing clients, we understand their need is not only for money but for answers, and for the reassurance that this dreadful occurrence won't happen again to somebody else. So, where appropriate, we will use the litigation as a way to apply pressure to bring about improvements in care.

Whatever the circumstances, we will do our utmost to help every client achieve what they need from their claim and support them throughout the process.

How can I afford legal advice?

We offer a free, no-obligation discussion for all patients considering taking legal action for potentially negligent medical treatment. Understandably one of the most frequently asked questions is how can I afford the legal costs? At Ashtons Legal we assure all of our clients that irrespective of the outcome, you will not be in a worse financial position at the conclusion of your case than you are now. This is the same whether you win or lose. Our lawyers are able to act on the following forms of funding:

- Public Funding (formerly Legal Aid)
- No Win – No Fee Agreements
- Legal Expenses Insurance
- Private Funding.
