

# SPECIALIST FINANCIAL ADVICE FOR PERSONAL INJURY

As the UK's leading integrated investment, financial planning and accountancy group, we help people and families affected by personal injury, as well as their professional deputies and trustees, across the UK through the power of good advice. Our team of specialists are highly experienced in supporting clients as their care and other needs change over time.

Our specialist advice includes:

- Lifetime financial planning and investment management – we help clients budget and create their financial plan without exceeding the agreed risk profile
- Due diligence reports for legal representatives to include ongoing suitability of existing financial plans and/or investment portfolios
- Financial planning support for Court of Protection applications

The value of an investment may go down as well as up and you may get back less than originally invested.
